INSTRUCTIONS FOR USE:
Celacyn™ Prescription Scar Management Gel

For Topical Dermatological Use Only

Rx Only—Prescription Medical Device—Caution: Federal Law restricts this device to sale, by or on the order of a licensed healthcare practitioner.

DESCRIPTION
Celacyn™ Prescription Scar Management Gel is formulated with patented Microcyn® Technology and has been clinically shown to improve the texture, color, softness and overall appearance of scars. Celacyn™ scar gel is intended for the management of old and new hypertrophic and keloid scars resulting from burns, general surgical procedures and trauma wounds.

INGREDIENTS
Sodium Lithium Magnesium Fluorosilicate, Dimethicone, Sodium Phosphate, Sodium Bicarbonate, Sodium Chloride, Sodium Sulfate, Hypochlorous Acid, Sodium Hypochlorite, Water

INDICATIONS FOR USE
Under the supervision of a health care professional, Celacyn™ Prescription Scar Management Gel is intended for the management of old and new hypertrophic and keloid scars resulting from burns, general surgical procedures and trauma wounds.

WARNINGS
Celacyn™ Prescription Scar Management Gel is to be used only as directed by a health care professional. It should not be used to treat any condition other than that for which it is prescribed. For topical external use only. Not for injection. Avoid direct contact with eyes and mucous membranes. Not intended for use on third degree burns or open wounds. Not to be used on dermatological conditions that disrupts the integrity of the skin. If irritation occurs discontinue use and consult your physician.

KEEP THIS AND ALL OTHER MEDICATIONS OUT OF THE REACH OF CHILDREN.

DIRECTIONS FOR USE
Remove cap from bottle and replace with enclosed finger pump. Discard cap. Shake well to mix before each use. Clean the affected area and pat dry. Apply Celacyn™ Prescription Scar Management Gel in a thin layer to the scar area three times per day (or as recommended by your health care professional) and massage gently into the skin. The recommended length of treatment is 8 weeks. Allow to air dry completely. Once dry, Celacyn™ can be covered with cosmetics or pressure garments.

STORAGE
Store with cap closed tightly after each use in its original container. Store at 59° to 77°F (15° to 25°C) away from direct sunlight and heat. Do not allow to freeze.

HANDLING
Non-irritating, non-cytotoxic and non-sensitizing to skin and eyes. No special handling precautions required.

DISPOSAL
No special disposal considerations required.

HOW SUPPLIED
Celacyn™ Prescription Scar Management Gel is supplied in a 1ounce (28g) glass vial with lid and finger pump bearing the identification number 02670-001-40, and as a 0.5 ounce (14g) professional sample 02670-001-57.
